Plant prestart checklist

AssetPass

For an excavator, loader or skid steer. A visual check before use, not an inspection by a competent person.

BUSINESS	DATE	TIME

OPERATOR	LOCATION

ASSET NO.	MAKE AND MODEL	ENGINE HOURS

In each box write OK, F for a fault, or NA if it does not apply.
STOP: a fault on a STOP line means do not operate it. Tag it out, tell your supervisor and write the fault below.

GROUP	CHECK	OK, F OR NA
Before use	No cracks, distortion or excessive wear	☐
	Controls return to the off position when released	☐
